01 — THE SHORT VERSION

Thoughtful by *default.*

I graduated from the University of Arkansas in 2026 with a bachelor's degree in Business Analytics. I'm now pursuing a master's in Product Innovation at the same university.

My background has taught me to be both detail-oriented and adaptable. Whether I'm organizing a space, learning a new tool, or contributing to a team, I bring a steady presence and a genuine willingness to learn.

LOOKING AHEAD

My goal is to bring my graphic design skills into a more business-oriented workplace and stay ahead of the AI revolution. I'm interested in using AI efficiently to make better use of available resources in a changing marketplace.
